H. R. GIRARD, Town Clerk.

make it light and fluffy. In this as in all other egg cookery, too intense heat must be avoided or the omelet will be tough on the outside and fall in the center.

Beaten Omelet: The number of eggs used depends upon the size of the omelet pan. Generally it is not wise to use more than four. A smooth Russia iron pan is good for omelets, but any smooth iron or the lighter weight frying pans will answer.

Four eggs beaten separately, 4 tb. water or milk, or 1/4 c. cream sauce, 1/2 t. salt, 1/4 t. pepper (white), 1 tb. butter.

Method: Beat the yolks till light colored and thick; beat the whites till stiff; add to the yolks the liquid and seasoning, but do not stir; add the beaten whites to the yolks; cut and fold the whites into the yolks till all is well blended. Have the omelet pan hot; rub the butter around the edge and let it run over the bottom of the pan. Put the mixture into the pan; smooth it evenly over the surface; let it cook in not too hot a place on the stove till the bottom is a golden brown; keep lifting the omelet with a knife to be sure when it is just the right brown and move the pan about if one side is browning faster than the other. Egg burns easily and great care should be taken to have it evenly browned; then place the pan in the oven for one minute or thereabouts to dry the omelet out on top. If oven is hot leave the oven door open. (The omelet must be dry all through, not moist on top, or it will fall when folded over.) When ready to remove from the oven, have a hot platter ready and fold one-half over on to the other and slip it carefully onto the platter. Garnish with parsley.

All additions to omelets should be added just before folding over. These take their names from the material added.

The liquid added, as specified in recipe, can be either milk or water or a cream sauce, made of one t. butter, 1 t. flour and 1/4 c. of milk or water. Water is considered by some to make a more tender omelet. The cream sauce makes an omelet which will not fall quite so quickly.

Variations: For a three or four egg omelet, the following proportions are generally added. (Use can be made, however, of almost any quantity of material which one has left over.)

Cheese: 3 or 4 tb. grated cheese added before folded.

Parsley: 3 or 4 tb. chopped.

Ham: 3 or 4 tb. boiled and chopped fine.

Any Cold Vegetables: Peas, corn, asparagus, celery, etc., heated in their own liquor, seasoned and drained can be added; or a larger quantity can be used and mixed with cream sauce and about 3 or 4 tb. of vegetables added to the omelet before folding, and the remainder put on the platter around the omelet.

Meat: Chicken or veal, cut in 1/4 inch cubes and warmed in cream sauce, or chopped fine and sprinkled over the same as the ham.

Fish: Any bits of fish flaked with or without cream sauce can be used.

Oyster Omelet: Add 1 c. of plumped oysters to 1 c. of cream sauce and add a few oysters to the omelet, and put the remainder around the omelet.

Clams can be used in the same way.

Sweet Omelets: Any jelly or canned fruit cut up fine or jam or baked apples or apple sauce, can be added to the omelet.

Unbeaten or French Omelet: This omelet requires a little more skill and experience in making than the other variety.

ham and seasoning. Fill the whites with the mixture and press together. Spread the remainder in a baking nappie, put the eggs on it, pour the white sauce over and sprinkle over the buttered crumbs and bake till a golden brown.

Escalloped Eggs with Rice: Slice hard boiled eggs in 1/4 inch slices. Take about the same (or more) quantity of boiled or steamed rice, according to the size of dish required.

Make a quantity of cream sauce equal to both egg and rice.

Select a baking dish suitable for serving. Make alternate layers of rice, egg and sauce, adding a scraping of onion juice and season with salt, pepper and celery salt and finely chopped parsley; continue till dish is filled, cover the top with buttered crumbs and bake a golden brown. Chicken liquor added to the sauce or the rice while steaming greatly improves the flavor.

A few tablespoonfuls of grated cheese can be added to this dish if desired, omitting the celery salt.

Poached Eggs: Have a shallow saucepan or omelet pan 2/3 full of salted water. When it begins to boil around the edge slip the eggs in carefully from a saucer, draw the pan back so it will not boil and gently dip water over the yolks till a film is formed, let them cook 5 or 6 m. or until the white is set. Take up with a perforated skimmer and place on buttered toast, season and serve. The white should be set but tender.

Steamed Eggs: Drop eggs into individual nappies suitable for serving. To each add 1/8 t. salt, speck of pepper and a small piece of butter. Place in a steamer and cook till the white is set, about 6 m. Sometimes 1 or 2 t. of cream are added to the egg before placing in steamer.

Egg Vermicelli: 1 c. cream sauce, 3 hard eggs, 4 or 5 slices of toast and enough toast points to garnish the platter.

Add the finely cut whites to the sauce; heat, pour over the buttered toast, rub the hot yolks through a coarse strainer or a potato slicer, over the sauce. Garnish with the toast points and parsley.

Baked or Shirred Eggs: Break eggs into individual nappies or any dish suitable for serving. To each egg add a small piece of butter, 1 tb. milk or cream and season with salt and pepper. Bake in a slow oven till the white is set.

Scrambled Eggs: 4 eggs, 1/2 c. milk or water, 1/2 t. salt, 1/4 t. pepper, 1 tb. butter.

Method: Put the butter into a saucepan, when melted break in the eggs and add the milk. Stir over not too hot a fire until well thickened. Serve on toast or piled on a platter without toast.

For variety strained tomato can be used for the liquid. 1 tb. chopped parsley and 1 tb. grated cheese, can be added to scrambled eggs if desired.

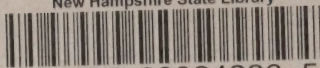

Creamed Eggs: 1 c. white sauce (a little thinner than usual) 4 eggs (beaten separately).

Method: When sauce is finished stir in the yolks of the four eggs slightly beaten. Cook 1 m. and stir in the whites beaten stiff.

Serve on crackers or toast.

Omelets: There are two distinct ways of making an omelet and all of the additions and variations can be added to either. In any case an omelet must be light to be a success. In the first kind it is held up by the air which is beaten into the whites of the eggs. The simultaneous expansion of the air and the hardening of the albumen
